

## MOBILE STEP BY STEP

- If you are able to, please can you open windows and doors as ventilation prior to my arrival.
- I will contact you on arrival so you can open doors for me, therefore avoiding unnecessary touch points.
- I will arrive wearing my mask, visor and disposable apron and will apply shoe covers before entering your property.
- I will arrive with my own nail table, which I will erect and fully disinfect in front of you (I will have also disinfected this prior to leaving the previous client - all my bags will have been disinfected too). Placing all disposables used to clean into a sealed bag.
- I will disinfect all items I'm going to use in front of you as well.

Once set up I will wash my hands thoroughly with soap, hot water and a nail brush, cleaning thoroughly under my nails. I will ask you to do the same and then place both brushes in the used box.

- Once seated we will both apply hand sanitiser.
- I will then put my gloves on to start the treatment.

For pedicures (even gels) you will need to place your feet in the pedicure bowl with sanitising solutions for 5 minutes before I start the treatment.

- Disposable towels will be placed under the pedicure bowl, for drying your feet during the treatment and disposed of in the sealed bag.
- Once the treatment has finished we can rebook your appointment and make payment electronically.
- All other disposable items will be disposed of in the sealed bag.
- Any non disposable items will be secured in a sealed container for sanitisation and disinfecting in my home salon.
- All hard surfaces and other items used will be fully disinfected before leaving your property.
- I will remove all other items such as apron, shoe covers and gloves in the sealed bag once I have left the property.
- I will only remove my visor and mask once I have left the property.

Thank you for adhering to all of the above and making your Potter's Pinkies visit an enjoyable one! Kirsty xx

Any questions about this process, please do not hesitate to contact me.
