

## SALON ENVIRONMENT STEP BY STEP

- Please arrive wearing your OWN face mask/covering before entering the property.
- Please enter the property through the gate at the front of the house which will be open to avoid touch points.
- Enter the house through the back door which will also be left open to avoid touch points.
- Please put the shoe covers provided over your shoes before entering the house (outside back door).
- Upon entering the house, please use the soap and nail brush provided to thoroughly wash your hands (min 20 seconds covering all areas of the hands) and scrub under your fingernails too.
- Please place the nailbrush in the 'dirty' box provided and dry your hands using the paper towels provided and place in the metal bin.
- Please place your belongings on the tissue paper provided and do not touch them throughout your treatment.
- Using the sanitiser provided please apply this to your hands before placing them on the nail cushion.
- Please refrain from touching ANY personal belongings during your treatment (if you do the full sanitisation procedure will need to be fully completed which is not suitable during most treatments).
- Once your treatment has been completed you may collect your belongings, make payment and leave the house/property via the back door and gate which will still be open. If not for any reason I will open and close these for you.
- Please take your face covering and shoe covers with you and dispose of them correctly by placing them in a sealed bag and then into a metal lidded bin or dustbin.

Thank you for adhering to all of the above and making your Potter's Pinkies visit an enjoyable one!  
Kirsty xx
